### Description

Unused Postwar Lionel 456 Coal ramp set accessory in original box. The set is C9 with a C9-10 unrun 3456 Norfolk and Western operating hopper car in an excellent original box with all original inserts, unopened parts packet and a 1955-56 service station list. The original box for the 3456 car has many inner tape repairs as I believe that it may have never been opened before I opened it. There was an original instruction sheet tucked in the end and a 207 coal bag inside of it,
